1.1 Contractors A, B and C will have utility facilities on the west side of Route 61/67 between Stations 421+00 to 433+00, as shown on sheet 3 of the roadway plans. In order to expedite the utility adjustments in these job limits, the contractor is advised to perform the clearing and grubbing operation as a first order of work from Station 421+00 to 433+00 (right). The contractor shall clear and grub to the right of way line in these limits. Each utility company estimates to start their adjustment after the clearing and grubbing operation is complete is the area described. Contractor A estimates it will take two weeks to adjust their facilities. Contractor C estimates it will take five weeks to complete their adjustments, Contractor B estimates it will take them a total of three weeks to complete their adjustments.

2.0 The (*City or County*) does not warrant that the above listing or the depiction of utility lines or facilities on other bidding documents are complete or accurately reflect either all utilities or their precise locations within or adjacent to the project limits or the status of any relocation work.
